Shoving around a pile of boxes to get at one document?

Get sneaky—approach from the side. solve it on page **12.**

The pros choose Paige.

The Paige Company is the choice of professional storage centers across the USA. Three reasons:

Innovative products. Great prices. Personal service.

We're an industry leader in creative solutions for tough storage problems. We have our own manufacturing plant and ship from distribution centers nationwide. *No middleman. No expensive long distance shipping. No long wait.*

We'll assign an expert *Paige Storage Solutions Consultant* to your account. He or she will help you find affordable solutions to virtually any storage container problem.

You'll find all your storage solutions at www.paigecompany.com.

For fast and easy online ordering, open an account with Paige by calling 1.800.223.1901 today!

We'll help you make the right choice. Call us.

It started with a Miracle.

50 years ago, famed package designer and engineer Richard E. Paige created a miracle. He named it, appropriately enough, *The Miracle Box™*. This breakthrough in office storage boxes sets up instantly, in just one step. (See the attached miniature Miracle Box.)

As demand for the Miracle Box grew, The Paige Company kept innovating with boxes to solve office storage problems. Affordable boxes that are easy to set up, rugged and accessible are the hallmark of Paige.

In this first edition of the *Paige Business Storage Solutions Guide*, you will find innovative solutions to your toughest storage problems.

Whether your company is large or small, your Paige Storage Solutions Consultant can help you select the right storage box for your valuable records and other office materials.

a consultant will tell you how.***

Choosing the right box

A lot more goes into it than meets the eye.

Box selection is a stressful matter. Not emotionally, but rather in determining the level of stress your cartons must bear during their lifetimes. Will they endure multi-layer stacking, as well as rough treatment during handling and transport? These performance factors and price must be taken into account.

Proper paper promotes perfect performance.

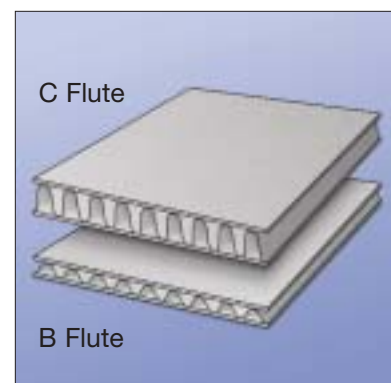

Corrugated storage boxes can be manufactured with different grades of paper and flutes and varying thicknesses of walls. The inside and outside of the box is referred to as the inside liner and outside liner respectively. The Kraft or sulfate process, primarily using softwoods produces the strongest liners. They have the longest fibers and result in the strongest boxes. Boxes manufactured with recycled paper tend to be weaker than those with virgin Kraft paper because recycling tends to break the fibers, and, over time, these shortened fibers cannot measure up to the strength of virgin Kraft.

During manufacturing at the paper mill, paper fibers are suspended in water and fed onto a moving wire mesh. The fibers are aligned in the direction of the flow, giving high compression strength in that direction and good tear strength across the fiber grain. By varying the amount of pulp spread on the mesh, one can determine the basis weight (lbs./1000 sq. ft.) of the finished product. The most useful standard grade for record storage boxes measures 42 lbs./1000 sq. ft., for this liner is the basis of the 200 lb. test corrugated box. The 200 lb. test measurement, however, does not indicate the maximum gross weight a carton can support. It indicates the bursting strength of the combined liners in lbs./sq. inch. Liners can be manufactured in lighter or heavier weights, but boxes made of lighter weight paper do not generally perform as well as those made of 200 lb. test. Boxes made of heavier weight paper will out perform 200 lb. test boxes, but their costs will be much greater.

Play one flute against another.

The inner ribbed section of the corrugated box is called the flute or corrugation. Generally, corrugated boxes are made in either "B" or "C" flute ("C" is larger). The selection of the flute is determined by the basis weight of the liners and the corrugating material and the performance characteristics of the storage box. The flutes in the corrugating material form a series of connected arches, which are extremely strong. They can support many times their own weight and, when turned 90 degrees to form columns, can support even more weight. The corrugated structural design is inherently a very economical, durable solution to a particular storage problem.

Your Paige Storage Solutions Consultant can help you select the right cartons for your needs and budget. All it takes is a call!

When you think about it, boxes are simple things. Then why on earth do they take so long to set up? Popping perforations. Sticking Tab A into Slot B. Maybe there's tape involved. Our company's founder asked himself the same question. His answer? The *Miracle Box*. In just seconds, it transforms into a sturdy box that lasts for years. Need to stack 'em high? Think of Miracle Box. Thanks to strong double-walls, it's less likely to wilt under the stress of being a box on the bottom. There's a "baby" functional *Miracle Box* inside the back cover. Try it! If ever a box were cool, this is it.

NO. 15	LETTER/LEGAL Separate Cover 12W x 15L x 10H in cartons of 25 minimum order 50

NO. 425	LETTER/LEGAL Separate Cover 12W x 15L x 10H in tied bundles

“Storing stuff is tough enough without having to wrestle with setting up boxes.”

The equation is simple enough. The more you need to store, the more boxes you need—and the more boxes you need to set up. *Wonder Boxes* are the economical solution for fast set-up boxes. They're ready to go in just one or two steps, depending on model. Need to carry your boxes? Select *Wonder Box* models with double-wall construction and tear resistant carry handles.

- > Save time – sets up fast in one or two steps, depending on model.
- > Choose from models with separate or attached covers.
- > Protect documents with 200-lb. test (or higher), Kraft paper construction.
- > Match the box to the application by selecting single or double-wall construction.

Wonder Box™

Utility/Moving Box

Major undertakings like records storage and moving can be expensive. Staying efficient while controlling costs is critical. So your choice of boxes figures big. A great solution is our wide range of *Utility/Moving Boxes*. You can choose models to match the size and strength of boxes to your contents. We even offer boxes with built-in hinged covers, making them easier to seal up and re-open. Built-in carry handles make them easier on the arms, too.

NO. 425	LETTER/LEGAL Separate Cover 12W x 15L x 10H in tied bundles
NO. 801	LETTER/LEGAL Attached Cover 12W x 15L x 10H in tied bundles
NO. 803	LETTER/LEGAL Separate Cover (Standard Weight) 12W x 15L x 10H in tied bundles
NO. 805	LEGAL MOVING TOTE Interlocking Top Flaps 16½W x 24L x 12H in tied bundles
NO. 806	LETTER/LEGAL Separate Cover (Heavy Duty Weight) 12W x 15L x 10H in tied bundles

“There’s lots to store and move. But we can’t spend a small fortune on boxes.”

- > Efficient and economical for storage and moving.
- > Select heavy-duty and lightweight versions, with or without hinged covers.
- > For maximum protection of valuable records, choose models built with a minimum 200-lb. test.
- > Moving Tote Box dimensions are designed for space-hungry office supplies.

Big moving or storage project coming up?
Your Paige Storage Solutions Consultant can help you match the box to the job. Call us!

NO. 53	FULL DRAWER LETTER Pull Out Drawer 12 $\frac{1}{2}$ W x 24L x 10 $\frac{1}{2}$ H in cartons of 5 minimum order 25
NO. 54	FULL DRAWER LEGAL Pull Out Drawer 15 $\frac{1}{2}$ W x 24L x 10 $\frac{1}{2}$ H in cartons of 5 minimum order 25
NO. 55	FULL DRAWER BANK CHECK Pull Out Drawer 9 $\frac{1}{2}$ W x 24L x 4 $\frac{1}{2}$ H in cartons of 10 minimum order 30

Do you have records that need to be stored, yet stay accessible? Why shell out for steel file cabinets when there's *Quick Stack* from Paige. These strong boxes have easy-open file drawers built in. Specially designed plastic clips let you snap the boxes together for vertical or horizontal stacking. Don't let the corrugated fool you—*Quick Stack* is stout. It's made from equivalent 275 lb. test Kraft paper. It has an outer glued sleeve, an inner support on two sides, and a **reinforcing galvanized steel frame**. No sharp metal edges for anyone to possibly get injured. The inner drawer for letter and legal sizes is quadruple walled.

“We need to store our files—not bury them.”

- > Economical, sturdy solution to steel cabinets for occasionally accessed files.
- > Save space—stack them up!
- > Prevents drawer handle pull-through with extra-large handle hooks and plastic reinforcement plate.
- > Special model for bank checks is now available!

Quick Stack Box™

Archival Box™

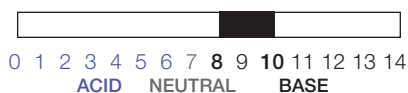

NO. 1110	LETTER/LEGAL 12W x 15L x 10H in cartons of 20 minimum order 40
NO. 1112	LEGAL DOCUMENT BOX 15¼W x 10¼L x 5D in cartons of 20 minimum order 40
NO. 1114	LETTER DOCUMENT BOX 12¼W x 10¼H x 5D in cartons of 20 minimum order 40

How do you store your most valuable records? In boxes made of acid-free, lignin-free paper? Are they buffered? Are the design and material extra strong? Do you have our phone number? Because if your valuable records boxes don't measure up to these specs, we suggest you call us today and ask for the *Archival Box*.

**“No fooling around.
These records need
maximum protection.”**

pH scale

- > Gentle: Acid-free, lignin-free, alkaline-buffered boxes keep files as good as new.
- > Tough: Double and triple-walled designs provide for extra strength corrugated paper.
- > Convenient: Velcro® closure for easy access.
- > Versatile: removable center divider converts full-size boxes to half-size on certain models.

NO. 360T	BANK CHECKS Tie Down Cover 9½W x 24L x 4¼H in cartons of 25 minimum order 50
NO. 361	BANK CHECKS Separate Cover 9½W x 24L x 4¼H in cartons of 25 minimum order 50
NO. 359	STANDARDIZED BANK CHECKS Separate Cover 9W x 17L x 4H in cartons of 25 minimum order 50
NO. 55	FULL DRAWER BANK CHECK Pull Out Drawer 9½W x 24L x 4¼H in cartons of 10 minimum order 30

If yours is like many businesses, you have to store bank checks and time cards. Paige has the perfect solution: *Record-Tainer*. This sturdy, easy-access container comes in three styles: with or without a tie-down cover model, and a pull-out drawer version. They're easy to set up, stack well and have indexing graphics on the front to help you locate records fast.

“Storing small records?
That’s a big headache.”

- > Save time with speedy two-step setup.
- > A federal regulations compliant model is available. Ask us!
- > Find bank checks and other small records quickly with clear index format and available pull-drawer model.
- > Protect documents with snug separate lid, optional string-ties, and Kraft corrugated paper.

Record-Tainer™

X-Ray Box

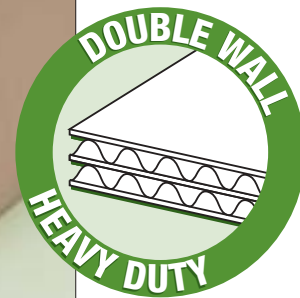

NO. 780 **BUTTON TIE CLOSURE**
5 1/2"W x 20"L x 15 1/4"H
in cartons of 20
minimum order 60

X-rays are valuable medical records, often stored for years. No wonder x-ray files can quickly overrun your storage area. We prescribe a filing solution that's inexpensive, safe and accessible—the *X-Ray Storage Box*. These easy-to-store boxes have durable double walls, button-tie closures and built-in carry handles. In our opinion, this is the strongest box you can buy. You'll easily store a whole lot of x-rays in a very compact space.

"All these x-rays are getting under my skin."

- > Built for repeated access without removing from shelves.
- > Hold heavy x-ray film securely with extra tough 350-lb. test double walled corrugated.
- > Easy portability, thanks to handles on the front and back.
- > Holds a wide variety of x-ray sizes with their jackets.
- > Maintain x-ray image quality with boxes made from Kraft paper.

Compare for convenience and durability!

NO. 760 Locking Tab Closures
6W x 6L x 40H
in cartons of 20
minimum order 40

Tube Box

“Let’s stop these rolled-up files from, well...rolling around.”

Got roll-ups rolling around your place? Posters, maps, architectural drawings and other rolled up files never take kindly to staying put. That’s what makes the Paige *Tube Box* a great solution. It’s easy to pack, designed with interlocking sealing tabs—no tape needed. Store them vertically or horizontally to maximize your storage space.

- > Easy to load with interlocking tabs—no tape needed.
- > Stores easily, vertically or horizontally.
- > Space efficient with 40 inches of height to store several smaller rolls, if needed.

NO. 61	MICROFICHE BOX Locking Attached Cover 11W x 13L x 4½H in cartons of 10 minimum order 30
NO. 62	MICROFILM BOX Locking Attached Cover 11W x 13L x 4½H in cartons of 10 minimum order 30

Microfilm and microfiche are great solutions for space-saving hard copy compression of files. Now the trick is to scale down the storage boxes, too. Presto—Paige’s *Micro-Storage Boxes*. These double-walled boxes are made from acid-neutral material to protect contents. Unique interior partitions keep film and fiche tidy and organized.

“We need to store microfilm and microfiche—without maxi headaches.”

- > Roomy with space for 3,000 in microfiche boxes, 27–30 rolls in microfilm version.
- > Keep records orderly with six separate compartments—a Paige exclusive.
- > Protect film with strong double-wall construction with additional crossing supports for extra stacking strength and acid-neutral paper (7.0 – 7.3 on the pH scale).

Micro-Storage Box

NO. 51 **LETTER**
Drop Front with
Button Closure
 15 $\frac{1}{2}$ W x 13 $\frac{1}{2}$ L x 10 $\frac{1}{2}$ H
 in cartons of 5
 minimum order 30

NO. 52 **LEGAL**
Drop Front with
Button Closure
 15 $\frac{1}{2}$ W x 16 $\frac{1}{2}$ L x 10 $\frac{1}{2}$ H
 in cartons of 5
 minimum order 30

Ever had this happen to you? You need a file fast, but it's in a storage box—tucked way under other boxes. Gee, if the box just opened from the side, this wouldn't be a pain. Paige hates pain. That's why we offer the *Side Tab Box*. We even put a button-tie closure on it to make it easy to open again and again without wearing out the tabs. Get in. Get your file. And get on with your day.

“Why must I take the box off the shelf just to get at the folder?”

- > Front-loading easy access to file folders. No removing boxes from shelves.
- > Interior insert maximizes strength.
- > Button-tie closure keeps documents secure, without wear and tear from opening and closing the box.
